

Health Care Justice Monthly Bulletin July 2023

Thanks to the efforts of groups like our congregation and the people we inspire to get involved, the Oregon legislature passed SB 1089, establishing the Oregon Universal Care Plan Governing Board. The Board's first task is to complete the process of writing recommendations detailing how the plan will operate and be funded. This will allow our champions in the legislature to write detailed legislation establishing the new system, enabling anyone who lives in Oregon to access health care when they need it, regardless of income.

Thanks for all the support you have given to this effort!
